

YG ACOUSTICS

CARMEL 3

Our Reference range demonstrates the very best that can be achieved in accuracy and musicality. We are honored that these models are some of the most awarded loudspeakers in the world.

They combine advanced materials with cutting edge science and engineering. They are designed without compromise, with the singular aim of transporting listeners into the heart of the music.

Carmel 3 delivers the highest accuracy and musicality possible from a compact two-channel loudspeaker. We have applied many of our technologies from the XV, Sonja and Hailey to a compact form factor that is compatible with any room. Carmel 3 throws a huge sound-stage with effortless detail. Incredible delicacy is combined with huge power and authority.

The Reference speakers are structured from high-grade aerospace aluminum, machined in-house to an incredible precision. The speakers are meticulously hand-built by experts in our Colorado workshop.

The Reference 3 models include new technologies and design innovations based on novel theoretical models, detailed multi-domain simulations and thousands of hours of listening. The end result: loudspeakers which convey every nuance of emotion, each musical cue from the tiniest micro-detail to the visceral impact of the most thunderous crescendo.

An entirely new, hybrid Lattice tweeter uses a novel airframe in a specially-selected aerospace alloy, machined by YG Acoustics. It delivers exceptionally low distortion over a huge bandwidth, with wide angular dispersion to support a large sweet-spot.

Groundbreaking, third-generation Ultracoherent crossovers apply a deep understanding from simulation to deliver performance never before possible.

Our BilletCore drivers use advanced motors and cones machined in-house from solid billet, offering some of the highest performance and lowest distortion in any driver available today.

SPECIFICATIONS

SPEAKER TYPE

2-way passive floor-standing loudspeaker

DRIVERS

Lattice hybrid tweeter with advanced airframe
18.5 cm (7.25") BilletCore driver with advanced neodymium motor magnets

CROSSOVER

Ultracoherent circuit with crossover at 1.75 kHz
Exceptional phase alignment: $\pm 5^\circ$ relative phase between drivers from 700 Hz to 3.3 kHz, covering range where driver relative output is within 25 dB
Optimized for phase alignment, phase slope and transient response
Custom capacitors, including pure metal foil models
Advanced resistors, including multiple foil resistors for exceptional imaging and transient response
Advanced, resonance-damped inductors
Computationally optimized layouts to minimize component interactions

RESPONSE

Usable output extends from 32 Hz to 40 kHz
Exceptionally low distortion throughout range
Excellent pair matching

SENSITIVITY

87 dB

IMPEDANCE

6 Ohms average
3.2 Ohms minimum

DIMENSIONS

103 × 23 × 31 cm (H × W × D)
41 × 9 × 13" (H × W × D)

WEIGHT

39 kg per speaker
85 lbs per speaker

FINISHES

Standard finishes are silver and black
Please contact your dealer for other finish options

YG ACOUSTICS

Founded in 2002, YG Acoustics is recognized as one of the leading manufacturers in the high-end audio industry. Everyone at YG loves music and our loudspeakers reflect our passion. They provide the most accurate, most musical performance possible today.

Our drive to recreate the emotional magic of a live performance constantly inspires us to push the boundaries of audio technology. Over the years, our journey has led us to many proprietary innovations in design, materials and manufacturing.

More importantly, our speakers provide the clearest of windows into the performance. They communicate every nuance of emotion, every musical cue from the tiniest micro-detail through to the physical impact of the most thunderous crescendo. At YG we are lucky enough to hear our speakers every day. They can bring tears to our eyes or leave us with ear-to-ear grins that last the whole day. We hope you like them as much as we do.

E&OE. Please note that YG is constantly updating our products. All specifications are indicative and subject to change.
