

YG ACOUSTICS

XX 3

Our Reference range offers the very best that can be achieved in accuracy and musicality. We are honored that these models are some of the most awarded loudspeakers in the world. Designed without compromise, their singular aim is transporting listeners into the heart of the music.

Celebrating the twentieth anniversary of YG Acoustics, XX 3 is a unique product: an ultimate performance loudspeaker that will redefine what you think is possible. Benefitting from the latest in driver and crossover technology, it offers the highest possible sound quality from a single tower design. It is an acoustic, scientific and engineering marvel.

The XX 3 delivers incredible accuracy and realism from the deepest bass to the highest treble: the finest micro-details placed exactly in a broad and deep holographic audio space; unmatched scale and faultless timing. Each channel has our revolutionary Lattice tweeter and seven BilletCore drivers, all driven by our most extreme Ultracoherent crossover.

The Reference 3 models include new technologies and design innovations based on novel theoretical models, detailed multi-domain simulations and thousands of hours of listening. The end result: loudspeakers which convey every nuance of emotion, each musical cue from the tiniest micro-detail to the visceral impact of the most thunderous crescendo.

An entirely new, hybrid Lattice tweeter uses a novel airframe in a specially-selected aerospace alloy, machined by YG Acoustics. It delivers exceptionally low distortion over a huge bandwidth, with wide angular dispersion to support a large sweet-spot.

Groundbreaking, third-generation Ultracoherent crossovers apply a deep understanding from simulation to deliver performance never before possible.

Our BilletCore drivers use advanced motors and cones machined in-house from solid billet, offering some of the highest performance and lowest distortion in any driver available today.

SPECIFICATIONS

SPEAKER TYPE

4-way passive floor-standing loudspeaker
Dual-layer and triple-layer, aerospace aluminum cabinet with constrained layer damping

DRIVERS

Lattice hybrid tweeter with advanced airframe
Dual 15 cm (6") BilletCore drivers with advanced neodymium motor magnets
Triple 18.5 cm (7.25") BilletCore drivers with advanced neodymium motor magnets
Dual 28 cm (11") BilletCore drivers with ultra-high field strength motor

CROSSOVER

Ultracoherent crossovers at 90 Hz, 360 Hz and 1.85 kHz
Optimized for frequency response, phase alignment, phase slope and transient response
Custom capacitors, including pure metal foil models
Exceptional components such as manganin foil resistors, resonance-damped inductors, silver gold alloy capacitors and OFC copper ribbon inductors
Custom, anti-resonance PCB with low dielectric constant and dissipation factor, with computationally optimized layouts minimizing component interactions

RESPONSE

Usable output extends from below 20 Hz to 40 kHz
Exceptionally low distortion throughout range
Excellent pair matching

SENSITIVITY

88 dB

IMPEDANCE

4 Ohms average
2.8 Ohms minimum

DIMENSIONS

148 × 35 × 64 cm (H × W × D)
58 × 14 × 25" (H × W × D)

WEIGHT

170 kg per speaker unpackaged
374 lbs per speaker unpackaged

FINISHES

Standard finishes are silver and black
Please contact your dealer for other finish options

YG ACOUSTICS

Founded in 2002, YG Acoustics is recognized as one of the leading manufacturers in the high-end audio industry. Everyone at YG loves music and our loudspeakers reflect our passion. They provide the most accurate, most musical performance possible today.

Our drive to recreate the emotional magic of a live performance constantly inspires us to push the boundaries of audio technology. Over the years, our journey has led us to many proprietary innovations in design, materials and manufacturing.

More importantly, our speakers provide the clearest of windows into the performance. They communicate every nuance of emotion, every musical cue from the tiniest micro-detail through to the physical impact of the most thunderous crescendo. At YG we are lucky enough to hear our speakers every day. They can bring tears to our eyes or leave us with ear-to-ear grins that last the whole day. We hope you like them as much as we do.

Please note that at YG we are constantly updating our products. All specifications and finishes are indicative and subject to change.
